1. Franchise Required. As required by Federal Law, it shall be unlawful for any Person or Entity to construct, operate or maintain a Cable System or MVPD facility or to provide Cable Service, Video Programming or other MVPD services, including OVS, in the Grantor without a Franchise authorizing the same, unless applicable federal or State law prohibits the Grantor's enforcement of such a requirement.

2. Grant of Franchise. Any Franchise that is granted in City shall be subject to similar terms and conditions.

3. Grant of Nonexclusive Authority.

- (a) The Grantee shall have the right and privilege to construct, erect, operate, and maintain, in, upon, along, across, above, over and under the Streets, public ways and public places now laid out or dedicated and all extensions thereof, and additions thereto in Franchise Area, poles, wires, cables, underground conduits, manholes, and other television conductors and fixtures necessary for the maintenance and operation in Franchise Area of a Cable System.
- (b) This Franchise shall be nonexclusive, and Grantor reserves the right to grant a similar use of said Streets to any MVPD at any time.
- (c) Before granting an additional franchise, the Grantor shall give written notice to all Grantee of any new application, identifying the applicant for such additional Franchise and providing at least thirty (30) days prior notice of the date, time,

and place at which the Grantor shall consider and/or determine whether such additional Franchise should be granted.

- (d) Neither City nor Grantee may unilaterally alter the material rights and obligations set forth in this Franchise. In the event of a conflict between any other ordinance and this Franchise, the Franchise shall control.

4. Franchise Term. The term of the Franchise is set to be in effect for a period of ten (10) years after the current expiration date of December 7, 2019 to December 7, 2029.

5. Territorial Area Involved. This Franchise shall be granted for the corporate boundaries of Grantor, as it exists from time to time. In the event of annexation by Grantor, or as development occurs, any new territory shall become part of the area covered. Grantor shall advise Grantee whenever property is annexed. Whenever the Grantee shall receive a request for service from at least fifteen (15) residences within 1,320 cable-bearing strand feet (one-quarter cable mile) of its trunk or distribution cable, it shall extend its system to such subscribers at no cost to said subscribers for system extension, other than the usual collection fees for all subscribers; provided that such extension is technically feasible, and if it will not adversely affect the operation, financial condition, or market development of the system, or as provided for under section 2 item 6 of this franchise.

6. Subscriber charges for extensions of service. No subscriber shall be refused service arbitrarily. However, for unusual circumstances, such as a subscriber's request to locate his cable drop underground, existence of more than one hundred fifty (150) feet of distance from distribution cable to connection of service to subscribers, or a density of less than fifteen (15) residences per 1,320 cable-bearing strand feet of trunk or distribution cable, service may be made available on the basis of a capital contribution in aid of construction, including cost of material, labor and easements.

7. Written Notice. All notices, reports, or demands required to be given in writing under this Ordinance shall be deemed to be given when delivered personally to any officer of Grantee or Grantor's Administrator of this Ordinance as specified in a Franchise.

SECTION 3. APPLICATION FOR NEW FRANCHISE

1. An application for an initial Franchise to provide Video Programming shall be in writing and conform to the rules and regulations set forth by the Federal Communications Commission (FCC).

2. Any Initial Franchise Application may be evaluated according to the criteria set forth by the FCC and approved within one-hundred eighty (180) days after City deems the Application is complete.

SECTION 4. CONSTRUCTION AND OPERATIONS STANDARDS

- 1. Conditions on Street Use.

- (a) Grantee shall obtain all required permits from Grantor before commencing any construction upgrade or extension of the System.
- (b) Conditions of street occupancy. All transmission and distribution structures, poles, other lines, and equipment installed or erected by Grantee pursuant to the terms hereof shall be located so as to cause a minimum of interference with the proper use of public ways and with the rights and reasonable convenience of property owners who own property that adjoins any of such public ways.
- (c) Restoration of public ways. If during the course of Grantee's construction, operation, or maintenance of the system there occurs a disturbance of any public way by the Grantee, it shall, at its expense, replace and restore such public way to a condition reasonably comparable to the condition of the public way existing immediately prior to such disturbance.
- (d) If at any time during the period of this Franchise Grantor shall elect to alter, or change the grade or location of any Street, alley or other public way, Grantee shall, at its own expense, upon reasonable notice by Grantor, not less than five (5) business days, remove and relocate its poles, wires, cables, conduits, manholes and other fixtures of the System. If Grantor reimburses other occupants of the Street, Grantee shall be likewise reimbursed.
- (e) Grantee shall, on request of any Person holding a moving permit issued by Grantor, temporarily move its wires or fixtures to permit the moving of buildings with the expense of such temporary removal to be paid by the Person requesting the same in advance of the move, and Grantee shall be given not less than ten (10) days advance notice to arrange for such temporary changes.
- (f) Grantee shall have the authority to trim any trees upon and overhanging the Streets, alleys, sidewalks, or public easements of Grantor so as to prevent the branches of such trees from coming in contact with the wires and cables of Grantee. Grantee shall reasonably compensate Grantor for any damages caused by such trimming, or shall, in its sole discretion and at its own cost and expense, reasonably replace all trees or shrubs damaged as a result of any construction of the system undertaken by Grantee. Such replacement shall satisfy any and all obligations Grantee may have to Grantor pursuant to the terms of this section.
- (g) Nothing contained in this Ordinance shall relieve any Person from liability arising out of the failure to exercise reasonable care to avoid injuring Grantee's facilities.
- (h) In areas where all other utility lines are placed underground, Grantee shall construct and install its cables, wires and other facilities underground. In any area where one or more public utilities are aerial, Grantee may construct and

install its cables, wires and other facilities from the same pole with the consent of the owner of the pole.

- (i) Grantee shall at all times construct and operate its System in accordance with applicable FCC Technical specifications.
- (j) In the event that the use of any part of the system is discontinued for any reason for a continuous period of twelve (12) months, or in the event such systems or property has been installed in any street or public place without complying with the requirements of this Ordinance, or the rights granted hereunder have been terminated, cancelled or have expired, Grantee shall, subject to the rights of the City to acquire the system as specified in Section 3.1(i) herein, promptly remove from the streets, or public places all such property and poles of such system other than any which the City may permit to be abandoned in place. In the event of such removal, Grantee shall promptly restore the street or other area from which such property has been removed to a condition satisfactory to the City.
- (k) Any property of Grantee to be abandoned in place shall be abandoned in such a manner as the City may prescribe. Upon permanent abandonment of the property of Grantee in place, it shall submit to the City an instrument to be approved by the City, transferring to the City the ownership of such property.
- (l) All cable and passive equipment for cable television reception service installed by Grantee at a subscriber's location shall remain the property of Grantee and Grantee shall have the right to remove said cable and equipment. Upon termination of service to any subscriber, the Grantee shall promptly remove all its above ground facilities and equipment from the premises of such subscriber upon his request.
- (m) No poles or other wire-holding structures shall be erected by Grantee without prior approval of the designated representative of the City Council with regard to locations, height, type or any other pertinent aspect, which approval shall not be unreasonably withheld. However, no locations of any pole or wire-holding structure of Grantee shall be a vested interest and such poles or structures shall be removed or modified by Grantee at its own expense whenever the City Council or its designated representative determines that the public convenience would be enhanced thereby.
- (n) Where poles or other wire-holding structures already existing in use in serving the City are available for use by Grantee, but it does not make arrangements for such use, the City Council may require Grantee to use such poles and structures if it determines that the public convenience would be enhanced thereby and the terms of the use available to Grantee are just and reasonable.

- (o) Where the City or a public utility serving the City desires to make use of poles or other wire-holding structures of Grantee but agreement therefore with Grantee cannot be reached, the City Council may require Grantee to permit such use for such consideration as is just and reasonable and upon such terms as the Council determines the use would enhance the public convenience and would not unduly interfere with Grantee's operations.
- (p) Subject to Federal Law and Regulation, Grantee shall at all times maintain on file with the City Auditor a schedule setting forth all rates and charges to be made to subscribers for basic cable service, including installation charges.
- (q) During the term hereof, the City may regulate rates only if authorized to do so by Federal Communications Commission regulations and then such regulation shall only be in accordance with the provisions of such regulations.

Users of such outlets shall hold Grantee harmless from any and all liability or claims arising out of their use of such outlets, including but limited to, those arising from copyright liability. Grantee shall not be required to provide an outlet to such buildings where the drop line from the feeder cable to said building or premises exceeds 150 cable feet or unless the appropriate governmental entity agrees to pay the incremental cost of such drop line in excess of 150 cable feet. If additional outlets of Basic Service are provided to such buildings, the building owner shall pay the usual installation fees associated therewith, including, but not limited to, labor and materials.

Grantee shall have no responsibility whatsoever for the programming, operation or administration of the PEG channel.
- (c) City understands that pursuant to federal law, Grantee may collect the Capital Grant from Subscribers as a separate line item on Subscriber bills, in addition to the price for Cable Service. Any payments by Grantee to City in support of PEG Access shall not be deemed "Franchise Fees" within the meaning of Section 622 of the Cable Act (47 U.S.C. §542).
